

## **CONTINUING MEDICAL EDUCATION PROGRAM**

### Outgoing seminar on Cardiology in Tavush Marz

Outgoing seminars on selected/actual medical topics are the cornerstones of the FAR Continuing Medical Education Program.

On October 8, using the opportunity that well known Canadian-Armenian Cardiologist Dr. Masis Perk visited Armenia to take a part to conferences dedicated to YSMU 90<sup>th</sup> Anniversary, as also considering the fact that many physicians from remote regions of Armenia will not be able to participate to his lecture in Yerevan, FAR CME Program and with YSMU were initiated one day seminar in Dilijan.

All interested specialists (cardiologists, therapists, specialists on emergency medicine) from whole Tavush Marz (Dilijan, Ijevan, Noyemberyan and Tavush) were invited. About 30 participants during of 3 hours learned lectures about actual medical topics on Cardiology (Golden minutes of treatment of acute hearth attack). Lectures were delivered by Dr. Masisn Perk.
